

NEW ZEALAND GREENSHELL™ MUSSELS

SEAMAZZ® New Zealand Greenshell™ Mussels are larger, sweeter, and juicier than other varieties. Their iridescent greenish-blue shells and light apricot colored flesh make an impressive presentation on the plate.

Features & Benefits

- A great sustainable option overseen by the New Zealand government allows for the mussels to be farmed utilizing only natural and environmentally friendly process.
- Convenient and versatile due to the flash frozen process immediately after harvest for a consistent product that is ready to thaw.
- A succulent appetizer or a great option for incorporating in entrees.

Source

SEAMAZZ® Greenshell Mussels are a farm-raised product from the clean, cold waters of New Zealand.

Ideal for using in:

- Pasta dishes
- Paella & risotto dishes
- Soup
- Standalone appetizer

Food for thought

New Zealand Greenshell™ Mussels are the ultimate health food. High in protein, low in fat yet providing 680mg of omega-3 from EPA and DHA in one serving. They are also a rich source of selenium, iron, Vitamin B12 and iodine, and a good source of magnesium and calcium.
